NCYOJ Spotlight

NCYOJ is welcoming applications from individuals interested in becoming a certified Juvenile Justice (MHT-JJ) trainer.

Developed specifically for juvenile probation, detention, and corrections professionals, the MHT-JJ provides research-based instruction that increases juvenile justice practitioner knowledge and enhances their skills in effective and safe interactions with youth. Up to 40 applicants will be selected to attend the next MHT-JJ Train-the-Trainer, scheduled for June 26-28, 2019, in Boston. Information about the application process will be accepted through Friday, May 24, 2019.

Elected official and advocates for youth with substance use— and the effects of opioid use on families. The InCK Model will assist states and local communities in addressing priority health and social issues affecting youth, such as behavioral health challenges—including opioid and other substance use disorder needs.

The InCK Model will assist states and local communities in addressing priority health and social issues affecting youth, such as behavioral health challenges—including opioid and other substance use disorder needs.

The 2019 School Violence Prevention Program (SVPP), overseen by the Office of Community Oriented Policing Services (COPS Office), is a competitive grant program to provide technical assistance, training, and consultation through phone, email, and webinars.

Nominations and consultations will begin on May 1, 2019, and continue through May 31, 2019. The 2019 School Violence Prevention Program Grant Open Call is available here.

The InCK Model will assist states and local communities in addressing priority health and social issues affecting youth, such as behavioral health challenges—including opioid and other substance use disorder needs.

In addition to Oakland, the 2019 SVPP will provide training grants to developers and practitioners in California, Nebraska, and New Mexico.

Joint meeting opportunities for stakeholder groups and coalitions, and the use of integrated service delivery across behavioral health, primary care, mental health, substance use, and other child services reduces Medicaid and Children’s Health Insurance Program (CHIP) spending.

The CJCA Awards for Outstanding Leadership in Juvenile Justice are presented each year to honor individuals who have shown exemplary leadership by implementing and sustaining reform within their jurisdictions and/or nationally. Among others, eligibility requirements include having been in the juvenile justice field for at least 15 years to improve juvenile justice systems to positively impact the lives of youth, staff and families.
