Part I: Mock Training Review (June 7 – July 2)

Participants will be given access to a password protected portal where they will have four weeks to go through the standard MHT-JJ training at their own pace. This will allow participants to experience a standard training first-hand and will help to prepare as we move onto the live training sessions which is where participants are taught how to facilitate the training.

The virtual mock training was designed to mirror the in-person training experience. Each module has interactivity built throughout including quizzes and discussion question prompts to encourage participant engagement. NCYOJ will be verifying participation by reviewing answers for correctness and completeness before participants can move onto the live sessions.

Participants will be required to complete the mock training in its entirety by Friday, July 2.

Weeks 1-4 (June 7 - July 2) will consist of the following:

- I. Welcome to the Virtual T3
- II. Background on the MHT-JJ
- III. Review Train-the-Trainer schedule
- IV. Module One: Introduction
- V. Module Two: Adolescent Development
- VI. Module Three: Child Trauma
- VII. Module Four: Adolescent Behavioral Health
- VIII. Module Five: The Family Experience
- IX. Module Six: Working with Youth – What You Can Do
- X. Module Seven: Effective Interventions
- XI. Module Eight: Taking Care of You

*The standard training is 8-hours but when done virtually varies on participant. We estimate between 8-9.5 hours will be spent on this section and recommend that participants split up the modules over the 4-week period rather than complete all in one sitting.

Part II: Train-the-Trainer (July 8 – July 30) (dates specified below)

Part II (Weeks 5-8) consists of three live sessions (including a practice session) on pre-determined dates and times that participants are required to be present at. NCYOJ will be using Zoom as a platform and requires that participants join using video if they have the capability to do so.
